

# THE resinDEK® ENQUIRER

Volume 5, Issue 1, April 2010

## What Inquiring DCs want to know!

Welcome to the NEW ResinDek Enquirer Newsletter!

We are looking forward to keeping you informed of new products and opportunities that can increase your production and decrease your expenses in material handling!

The ResinDek Enquirer will be released on a quarterly basis and consist of one page to keep it as a quick informative read. When additional details on a topic are available at our resindek.com website we will include a link to that page for your convenience; of course phone calls and emails are always welcomed 😊.

In addition to our new products, we have replaced our ResinDek EF (environmentally friendly) single product with NAF (no added formaldehyde), which is NOW available in ALL ResinDek panel weights and sizes! NAF is designated with our new NAF logo and can contribute towards more LEED® credits.

### New Products at this time are:

**Collated Screw Gun** for ease and speed of installation, delivering a savings of up to 40% in installation. <http://www.resindek.com/Mezzanine-Floors/standup-screw-gun.aspx>

**Tested and proven 1/2" panels** with the strength of traditional 3/4" panels for 30% savings in freight. <http://www.resindek.com:80/Mezzanine-Floors/Mezzanine-Floors-50-Series.aspx>

**Save Over \$5 square foot** when you use ResinDek® instead of concrete. Case studies and test results available, ResinDek is replacing concrete on new and existing sites currently. So contact us today if you have interest.
