Volume 1, Issue 1

## SHOCKING NEWS!

**ResinDek**<sup>®</sup> ESD panels provide outstanding static control solutions for mezzanine floors, shelving systems and workstations!

Stephen Halperin and Associates have extensively tested ResinDek ESD panels and have found them to be in compliance with

- ANSI/ESD S7.1-2001,
- ASNI/ESD 20.20-1999, and
- ANSI/ESD STM97.2-1999.

Protect your electrically sensitive laptops, barcode scanners, servo-drive motors and pick-to-light systems with ResinDek ESD panels. Prevent computer downtime and uncomfortable static shocks to individuals as well.

## STRATEGIC PARTNERS

Our valued partners are leaders in the industry, with the expertise you demand to complete your distribution center needs. Contact one of our Preferred Cornerstone Partners today for additional ResinDek specifications.

## FLOOR IT!

### When to use ResinDek® UF (unfinished) vs. Gray or Clear Diamond Seal™

If the appearance of your distribution center is a concern then you should consider a coated floor panel rather than an unfinished one. The price is initially higher, however some have found that later they must paint or replace the flooring in sections because stains cannot be removed easily.

So it's worth considering upfront the beverages, traffic, marking pens and other stains that are common in distribution centers.

ResinDek is offered with a clear or gray coating named Diamond Seal™ because it is strong enough to outperform other products in withstanding gouge and taber abrasion tests.

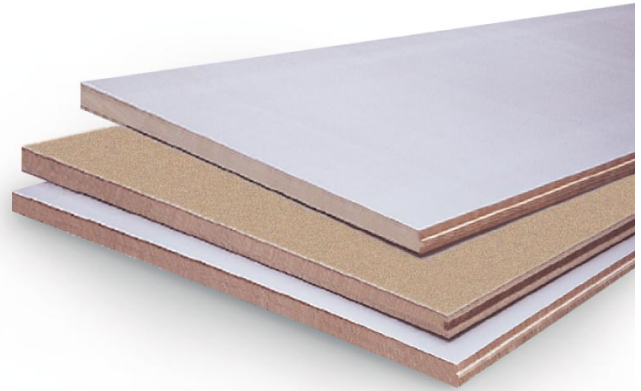

Clear Diamond Seal™ or Gray Diamond Seal™ not only have exceptional resistance to common warehouse stains and have been rigorously tested with 29 different reagents – they are also more skid resistant.

## NEWSWORTHY

In January 2005, Cornerstone Specialty Wood Products, LLC will be launching:

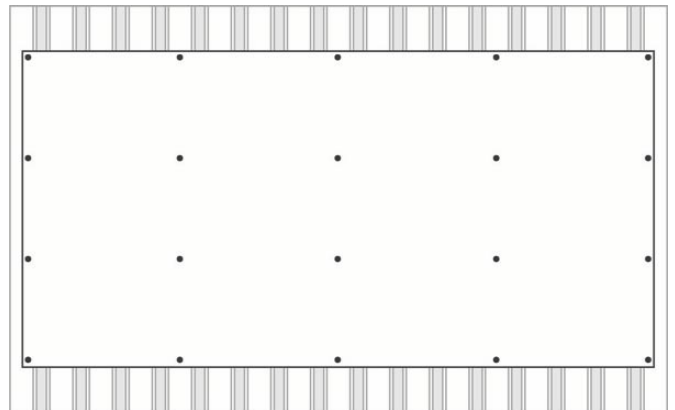

**ResinDek.com**

Come visit our additional website and get to know ResinDek even better.

## LAYING IT OUT

### Installation Just Got 30% Easier!

ResinDek, panels save 30% in fastening time by using 20 fasteners rather than 36 per panel. This change is effective immediately, and a new fastener pattern diagram can be obtained from any ResinDek distributor or through Cornerstone Specialty Wood Products, LLC.

## SUCCESS STORY

# Pacific Mini Storage Implements ResinDek® Panels for Efficient Storage Space

◆ **CHALLENGE:**  
Storage space was needed near the city limits of San Francisco, California, where land is a valuable commodity.

◆ **SOLUTION:**  
With Cubic Designs' creativity and ResinDek® panels, Pacific Mini Storage was able to build directly above their existing enclosed storage area, which allowed them to maximize their existing space.

*Cubic Designs is a ResinDek strategic partner with Cornerstone Specialty Wood Products. Watch for future success stories on our other ResinDek partners in upcoming newsletters.*
